

Orlando FSDO FAASTeam presents:

Return from EAA AirVenture at Oshkosh

Returning home from EAA AirVenture in Oshkosh. Are you going to EAA AirVenture in Oshkosh this year? Have you ever had to arrive or depart the Oshkosh area in IMC conditions? Are you familiar with the specific procedures for IFR vs VFR? We'll discuss an actual scenario where a pilot makes an IFR departure from an airport near KOSH and then experiences an emergency in IMC conditions during the enroute phase of his flight home. Come share your Oshkosh arrival and departure experiences and increase your knowledge of what you might do in a similar situation. None of us are immune from potential problems like those experienced by our scenario aviator; we need to be prepared. This WINGS event will yield 1 Advanced Knowledge credit and is available for all pilots. This seminar also serves as the monthly IMC Club meeting.

Directions: NEW LOCATION for this month's WINGS Seminar - The Vigilante Room at Sanford Airport; it's in the Rental Car Building across from the Commercial Airline Terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
